

Easy Clean Telescopic Cleaning System 5,6 m

Telescopic tube made of carbon fibre with a very low weight, that reaches up to 8 meters high and is therefore very well suited for interior cleaning in high places, e.g. in production halls, churches, shopping centres etc. The cleaning system is used together with a good, powerful vacuum cleaner, for example RONDA® 200H Power.

The system consists of a carbon fibre telescopic tube with a maximum length of 4,2 meters, and a separate carbon fibre tube of 1,5 meters, which is connected to the telescopic tube. This makes the total length of the tube approximately 5,6 meters.

Carbon fibre tubes are characterized by their low weight and high strength, and are therefore very well suited for this type of task, since the tubes are stable and at the same time easy to handle. The set comes complete with a carrying bag and a large selection of nozzles and tube bends so that it can be used for many different types of interior cleaning tasks at high places.

As option, a wireless camera with monitor is available, making it possible to follow the work progress from the floor and ensure optimal cleaning.

The system includes following accessories:

1+2. Carbon fibre telescopic tube set 5,6 m	82.97.1416
3. Adapter 38/44mm	82.97.1401
4. Flexible brush nozzle, 200mm	82.97.1403
5. Carbon fibre tube bend 155°	82.97.1410
6. Brush nozzle with swivel, black PP brushes	82.97.1404
7. Carbon fibre tube bend 65°	82.97.1411
8. Round brush, black PP brushes	82.97.1405
9. Radiator nozzle, for crevice nozzle 35mm	82.97.1408
10. Brush nozzle, white PP brushes	82.97.1406
11. Crevice nozzle 35mm	82.97.1407
12. Pipe brush for 100mm pipes	82.97.1409

With practical carry bag

Extra accessories

2. Carbon fibre tube 1,5 m Ø44mm	82.97.1402
a. Camera + monitor without recording function	82.97.1007
b. Camera + monitor with recording function	82.97.1008

- A complete system - easy to use and transport
- Easy cleaning in high places that are difficult to reach, without using ladder or scaffold
- Up to 7 meters reach
- Many different special nozzles
- Including practical carry bag
- Camera and monitor (optional)
