

## Pre-separator CF-502P/LP with Longopac

84.31.0156

RONDA® CF-502P/LP is a cyclone pre-separator with built-in Longopac collection system. When vacuuming large volumes of very fine dust, using a pre-separator protects the filter system of the vacuum cleaner from overload. A pre-separator also comes in handy, when you need extra collection capacity.

RONDA® CF-502P/LP separates out 98-99% of the vacuumed material, and only a small part ends up in the suction unit, significantly extending the life span of the vacuum filter. A collection capacity of 50 liters permits the collection of larger quantities of material without having to move about a large machine.

The pre-separator has been designed for collecting the material into a Longopac bag. Therefore, it is delivered as standard with a pressure compensation hose to ensure that the bag fully opens in the container when under vacuum.

Collection in a plastic bag ensures easy and safe transportation and handling of the collected material. The Longopac system, furthermore, minimizes dust release at the emptying procedure.

RONDA® CF-502P/LP is well suited for the collection of mixed materials, both wet and dry.

### TECHNICAL DATA

Recommended air flow	65	l/sec.
Collection capacity	50	l
Height	980	mm
Width	435	mm
Length/depth	480	mm
Weight	14.0	kg
Coupling	38/38	mm

- Collection with Longopac
- Cyclone separator
- Reduced filter load
- Easy emptying
- Metal trolley frame
- 5 rubber-tread swivel wheels
- Large collection capacity
- Also for damp materials
- Can be connected to central vacuuming system
- With 2.5 m hose

## **Pre-separator CF-502P/LP with Longopac**

### **STANDARD ACCESSORIES**

- |                                      |            |
|--------------------------------------|------------|
| 1. Plastic hose, ø 38 mm, 2.5 m..... | 84.54.3858 |
| 2. Longopac bags 20m x 4 pcs .....   | 84.64.2801 |

### **PRODUCT VARIANTS**

The model is available in two other versions:

- |  |            |
|--|------------|
| RONDA CF-502P – with plastic container.....                              | 84.31.0159 |
| RONDA CF-502A – with metal container and<br>electrostatic discharge..... | 84.31.0160 |

Both versions are equipped with a plastic sack (84.64.9990)
