

Model 2200H (2200 W)

82.16.3072

RONDA® 2200H (3300 W)

82.16.3073

RONDA® 2200H is a powerful class H industrial vacuum cleaner which is emptied from the bottom. It is available with either two motors (2200 W) or three motors (3300 W). The machine is well suited for cleaning at construction sites, in industrial environments and in other areas with large volumes of fine and/or hazardous dust.

As a pre-filter, the RONDA® 2200H is equipped with a multi-tube filter with a dust-repellent coating and a filter area of 0.8 m². The filter is spring-mounted and provides a self-cleaning effect during operation. The machine is also equipped with a HEPA filter (dust-class H) with a filtration of more than 99,995% of all particles - 0,3 µm being the most difficult particle (mpps). External filter cleaning by means of a pressure compensation valve ensures efficient cleaning of the multi-tube filter without needing to dismantle the vacuum cleaner.

To empty the vacuum cleaner, simply raise the locking handle on the back of the machine. This releases the container, allowing it to be rolled out from beneath the machine quickly and easily.

A complete accessory kit comprising a hose, tube and nozzles is included. A tube holder is fitted to the side of the machine for securing the tube when it is not in use (see picture below).

The RONDA® 2200H is also available with a front-attached floor nozzle for efficient cleaning of larger areas (model 2600H).

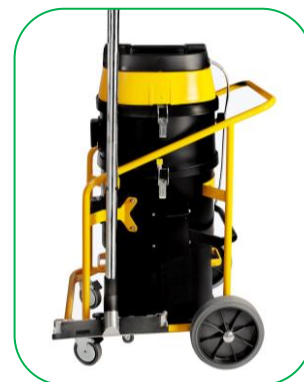

TECNICAL DATA

	82.16.3072	82.16.3073	
Pmax./PNom.	1700/2200	2500/3300	W
Voltage	230	230	V
Power outlet, max.	-	-	W
Data of the installed motor:			
- Vacuum, max. (per motor)	2550	2550	mmWC
	25	25	kPa
- Air flow, max.*	51,4	57,3	l/Sec.
	185	206	m ³ /h
- Air flow, max.** (per motor)	54	54	
	194	194	
Noise level (ISO 11201)	<70	<70	dB(A)
Collection capacity (bag/container)	25/35	25/35	l
Pre-filter	0,8	0,8	m ²
HEPA-filter	2,2	2,2	m ²
Height	1120	1120	mm
Width	670	670	mm
Length/depth	770	770	mm
Weight without accessories	39	41	kg
Container coupling	ø 50	ø 50	mm
Length of cord	15	15	m

* Measured, vacuum cleaner with 0.5 m ø 50 mm hose

** Data sheet values

- High collection capacity
- Multi-tube filter with dust-repellent coating
- Continuous filter cleaning during operation
- Robust trolley frame
- Smooth-running drive wheels
- Low noise level
- Static electricity dissipation
- External filter cleaning with pressure compensation valve
- HEPA-filter (dust-class H)
- Long cord - large operation radius
- Emptying from the bottom
- Integrated tube holder →

Model 2200H

STANDARD ACCESSORIES:

40 mm professional's set (antistatic)	80.43.4026
1 Plastic hose, antistatic, ø 38 mm, 4 m.....	84.74.3805
2 Complete tube with bend.....	80.52.2160
3 Crevice nozzle.....	80.34.4000
4 Round brush.....	80.34.4001
5 All-purpose floor nozzle B-370	84.38.3620

6 Container insert for collection in plastic bag (incl. 2 plastic bags).....	84.64.9987
---	------------

STANDARD FILTERS:

1 Multi-tube filter.....	84.67.1114
2 HEPA-filter.....	84.67.5037
• Plastic bag, 640x585x0,075 mm, black PE (10 pcs./pack).....	84.64.9972

OPTIONAL EXTRAS:

1 Metal container 40L with wheels	83.79.0013
2 Front nozzle complete w. lifting handle and fitting (incl. hose and holding clip for the lifting handle)	80.31.0006
